

## **\*\*CIET- Newsletter....**

### **\*\*The students of CIET have started with their FOSS training program.....**

The best part of this training program is that every student is learning at his with his/her own pace. The students are exploring “**Problem Solving and Programming in C - Advance C**” using this course, students will come to know about the different modules of C language. For example, the use of tokens, operators, statements, functions, array, strings, structure and file handling modules.

### **\*\*Students of CIET working on various aspects of Modern Industry...**

As Mechanical workshop has started, the students are learning various tools and operations present in the carpentry shop. The aim of the ongoing workshop is to make students familiar with the basics of Designing skills, auto skills and refrigeration techniques.

### **\*\*ECE students performing on various Electronic Components, Studying Digital Gates and much more to go.....**

Demonstration of Various Electronic Components as Resistor (Through color coding) and types, Capacitor and types, Transformer (12012, 606,909), Diodes (LED, PN diode, Zener Diode), Transistor, LDR, Relay, Regulator (78xx, 79xx), Various ICs. Use of analog and digital Multimeter.

- Testing of electronic components with Multimeter.
- Study of various parameters of

signals through CRO as amplitude, Phase, Frequency and their calculation.

- To generate various signals of different frequency and voltage through Function Generator.
- Soldering – DE soldering Practice and assembly of Circuits on Bread board.
- Study of various Digital gates (AND, OR, NOT, NOR, NAND). Minor Project (Regulated DC Power supply – Compulsory)

### **\*\*Students of Civil Engineering enhancing their Designing & Drafting Skills.....**

Learning AutoCAD software will help the students in creating the prints of the Building, Bridges and other Infrastructure

## **\*\*Placement Drive at CIET with FriskLancer Services...**

### **\*\*Vacancies for...**

- I. Technical Writer
- II. Programmer
- III. Marketing Executive

### **\*\*\*Ongoing Communication Skills Workshop....**

The aim of the ongoing session, is to apprise the students with the correct pronunciation, Habit of Reading Newspaper and the linguistic part of the language
